

Pharmaceutical Industry

Specialized solutions for production water and effluent treatment

FRANCE ENVIRONMENT has long experience in the production of ultra pure water and the management of wastewater from industry.

Pharmaceutical industries are among the most regulated industries due to the very high standard required in drug manufacturing.

FRANCE ENVIRONMENT is specialized in the field of pure water and the treatment of pharmaceutical industry effluents, with a variety of reference projects for more than 10 years.

Meeting the increased demands of pharmaceutical companies regarding the quality of water in production lines, it supplies and installs turnkey water treatment systems. In addition, it studies and builds specialized wastewater treatment plants according to customer needs.

Specialized solutions for water production and treatment of effluents from Pharmaceutical Industries

Pharmaceutical companies are obliged to respect the strictest quality standards for their products, while being competitive in terms of production costs.

The production lines of the pharmaceutical industry need ultra pure water used in the manufacture of pharmaceutical products. Our company designs and installs suitable equipment, including:

- Reverse osmosis
- Water softeners
- Ion exchangers
- Filters sand, activated carbon filters
- Disinfection units (UV, chlorination, chlorine dioxide, etc.)

Regarding the management of effluents from the drug manufacturing process, our Company supplies the following equipment:

- Evaporators, for the treatment of effluents with a high polluting load
- Sand filters and activated carbon to clarify the treated water in phase final
- Membrane units, for high quality clarification
- Filter press, for dewatering the sludge produced and reducing its volume.

FRANCE ENVIRONMENT's experienced technical staff, constantly trained on the needs of the pharmaceutical industry, offers innovative methods and appropriate equipment, fully adapted to the needs of the client.

FRANCE ENVIRONMENT guarantees perfect results,
always offering the most economical solution!
